e-publishing in Tamil - Today and Tomorrow

P.Dhanapal <pdhanapal@yahoo.com>
Chief Executive, Minveli Media & Language Services
303 C PSG STEP, Software Park II, PSG College of Technology
Peelamedu, Coimbatore - 641 004, South India

The following is the skeleton of my proposal. This will be made as multimedia presentation for the conference.

Technical Aspects

How will you define e publishing technically?
Print books - Print magazines - Video Documentaries - Video Magazines - Audio Stories - New possibilities in e publishing

Using multimedia tools
Advantages of different tools (macromedia & other products) - Role models in Tamil and other languages - Exploring the possibilities

Using web related tools
Limitations and Possibilities - Role models

Media of Publishing
CD ROMs - DVDs - Web - e-book disks - even floppy disks
- Purpose of publishing, Reaching people and easy access

e-books & e-magazines - a view on current trend in Tamil

web, CD ROMs & corporate magazines
Activities in web - achievements in web - Limitations in web magazines - Failures in web magazine ventures - Revenue in web magazines - Available Titles in Tamil in CD media - Trend in using multi media - Advantages of CD media and multimedia - commercial possibilities - other form of e magazines (in corporates)

On Content Part

Existing attempts and limitations with regard to:
1. Tamil Language
2. Present Tamil Children
3. Tamil Society in general
4. New form of Arts and Literature

Tamil e publishing Tomorrow

Required vision in - using technology, contents and reaching people locally
Exploring new possibilities
Preserving Tamil heritage
Innovative in marketing
Making economically viable

End of the skeleton.
